

CORETRAX

Where **experiential** meets **assessment** meets **curriculum**

WHAT IS CORETRAX?

An intuitive web-based application combining power and simplicity to provide tools for managing a Doctor of Pharmacy (PharmD) program. To accomplish this CoreTrax integrates the primary aspects of a successful program- experiential planning, curriculum and assessment.

PLAN EXPERIENTIAL

An experiential program has many moving parts that must be coordinated for things to run smoothly. From creating and assigning rotations to managing evaluations and everything in between there is a tool built within CoreTrax to assist.

EXPERIENTIAL

- Organize sites, rotations, students and preceptors
- Manual & automated rotation assignment & trading
- Extended rotation search features
- Flexible program setup for APPEs and IPPEs
- Student hour & requirement tracking
- PaperWork system manages any document efficiently

- Manage courses and coursework
- Create rubrics with elements linked to competencies
- Various types of course admins (i.e. Teaching assistants)
- System graded questionnaires
- Upload files as coursework

CURRICULUM

CONTROL COURSES

Courses and coursework can be created with multiple levels of organization to create a flexible approach to managing a curriculum. Administrators can design rubrics that are linked to competencies- providing an integrated assessment experience.

INTEGRATE ASSESSMENT

Assessment is best when it is seamlessly integrated with the other aspects of your program. For example, competencies may be mapped to various elements, including: coursework rubrics, evaluations, and student experiences, just to name a few.

ASSESSMENT

- Integrated customizable competency-based system
- Map competencies to questions and rubric elements
- Students and preceptors can view competency progress
- Portfolio system for sharing student documents
- Build evaluations & surveys & forms

GENERAL FEATURES

- Queue/ Todo List System automatically shows each user tasks that must be completed and provides easy access to them
- Integrated Cloud Sharing System for user documents
- Customizable automated reminder email system for expiration dates and due dates
- Create custom roles (i.e. Teaching Assistant and Site Administrator); each role can have customized rights for the application
- Mobile apps for access to CoreTrax functionality (Apple iOS and Android)
- Convenient data export using excel

WHY CONSIDER CORETRAX?

The quality of the job is often reliant on the quality of the tool used. When a tool is inefficient and cumbersome both work and worker suffer. Finding the right tool- or creating one, is essential for consistent and maintainable success. The right tool empowers the user to accomplish the task effectively and efficiently. CoreTrax intends to be that tool.
